The English language is one of the toughest languages to learn. There are thousands of words that have multiple definitions, and somewhere around 500,000 different words in general! That's a lot to remember. No wonder it's considered one of the most difficult languages in the world. We've put together a list of six websites that can help you tackle this difficult challenge with ease. 1) Dictionary . com This is an online dictionary, but it's super simple to maneuver around. Type in the word you want to look up, or find a word you know and follow it back to its definition. This one doesn't require any downloading, and is easy for anyone with even the slightest computer knowledge skills. 2) English Forums This site has thousands of active users who post daily with questions on English usage. Topics range from simple vocabulary to grammar to even some basic phrases. Great for practice, but not great for learning how to use English in general. 3) WordReference This is a dictionary that focuses solely on English words and words used in English. There are some very nice features, such as the ability to search for words by topic or include multiple uses of the word. It's great for getting started studying, but you won't be able to get anything new out of it unless you want to go back again and again. 4) Learn English Though this website is designed for Spanish speakers who want to learn English, the lessons are universal based on logic. The words are organized in an easy to find format, and there's even a huge forum where people often post questions and answers. It's one of the best out there for learning English from scratch. 5) Transparent . net In this language learning program, you have the option of learning from an online forum forum or from e-mails home and abroad. In both cases, you get to speak directly with native speakers who will help you learn faster than any other course out there! It's a great way to get hands-on practice while speaking with others in your chosen field. 6) Udemy Udemy offers tons of lessons on a variety of topics. There are lessons for learning English; there are lessons on learning Chinese, German, or any other language you want to learn. The courses range from online demonstrations with videos and audio recordings to downloadable flashcards and review quizzes.
